NEAR EAST UNIVERSITY

Department: Banking and Finance

Graduate School: Social Sciences

Program Name: Master of Banking and Finance (MSc and MA)

Program Language: English

Program Objectives: The program's purpose is to distribute the newly developed lectures and provide the latest skills to hold the diploma. The 1st table below represents the master's program in Banking and Finance with a thesis option. To accomplish the program, students should finalize seven courses, one seminar and a thesis. There are three compulsory area courses and, plus two research and learning courses in the syllabus. Therefore, just two courses are selective from the area-related courses. All the new semester elective courses would determine the need and supplements to the syllabus to support student education in the program. The 2nd table below represents the second program option (without thesis) which consists of 10 courses and a graduation project.

Bank Management: It is showing the management skills and theories in the banking industry.
Financial Management: Enterprises would engage all kind of financial issues, and this course provides the necessary Fundamentals.
Econometrics: This course is critical for writing the thesis. Because enlarge, we are expecting empirical analysis into the thesis to succeed.

Program Option 1:   The thesis option consists of 7 courses + seminar + thesis
